I'm going to read you a list of activities that some people participate in during their free time, that is, the time during which you are neither working for pay nor involved in household responsibilities or some other obligation. For each activity, FIRST tell me whether you do it daily, several times a week, several times a month, several times a year, once a year or less, or never. Then FOR EACH, please tell me whether you would like to do that activity more frequently, less frequently or that you would like to continue doing it to the same degree you are currently doing it.

I know it is difficult, but thinking about an average weekday or day that you typically work, about how many hours per day do you spend in leisure activities, that is, the time during which you are neither working for pay nor involved in household responsibilities or some other obligation? Would you say...
