

Q1KEY. To begin, we would like you to think about the future of young people, including teenagers, in your neighborhood or area where you live. For each of the following life events, how likely do you think it is that a typical young person in your neighborhood will experience each of the following. Is it very likely, somewhat likely, not very likely, or not at all likely? (ROTATE SERIES Q1-Q14)

Q1. How likely do you think it is that a typical young person - Graduate from high school

Now, we want to get your thoughts on what is taught in schools and the evaluation of student learning. The federal Every Student Succeeds Act (2018) requires that states annually administer tests in English Language Arts (ELA) and Mathematics in Grades 3-8. (ROTATE SERIES Q26-Q29)

Q26. Please indicate how much you agree or disagree - Standardized tests are an effective way of measuring student learning																									
	Gender			Age				Region			Child in HH		Religion				Income			Ethnicity			Party

This Siena College Poll was conducted April 10 - 22, 2025, among 801 New York State Residents. Of the 801 respondents, 801 respondents were drawn from a proprietary online panel (Cint). Data from collection modes was statistically adjusted by age, party registration, region, race/ethnicity, education, and gender to ensure representativeness. It has an overall margin of error of +/- 4.1 percentage points including the design effects resulting from weighting.

The Siena College Research Institute, directed by Donald Levy, Ph.D., conducts political, economic, social, and cultural research primarily in NYS. SCRI, an independent, non-partisan research institute, subscribes to the American Association of Public Opinion Research Code of Professional Ethics and Practices.

For more information, call Travis Brodbeck, 518-782-6997.
